

# Medicare Prescription Drug Plans in Florida

1-800-963-5337

SHINE (Serving Health Insurance Needs of Elders)

Revised 11/15/07

As Medicare beneficiaries review their prescription drug plans for 2008, we invite individuals to contact the Florida **SHINE (Serving Health Insurance Needs of Elders)** Program at **1-800-963-5337**. You may also learn about other state or federal programs that may help save on your out-of-pocket costs. Through a network of trained **SHINE** Volunteer Counselors, Medicare consumers may receive free, unbiased personal attention. This can be accomplished by telephone, or if preferred, personal assistance at a counseling site located within their community.

As people with Medicare receive marketing materials from Medicare-approved prescription drug plans, now is a good time to find resources that can help in selecting a prescription drug plan that addresses their individual concerns about cost, coverage and convenience. We offer the following information about the various Prescription Drug Plans, Medicare Advantage Plans, and plan options available to individuals with limited income and resources. (Note: many plans offer a mail-order option.)
